

## **Questionnaire Biowaste Separation**

	Customer Data								Location Data					
Company name:								Company name:						
Responsible person:								Address:						
Address:								Country:						
Country:								Temperature in summer:		°C	(average)			
Phone number:								Temperature in winter:		°C	(average)			
Website:								Relative humidity:		%	(range)			
E-mail:								Altitude above sea level:		m				
	Technical Requirements						-		Specification Waste					
Capacity:		t/a		t/d		t/h		Type of waste:	☐ Municip☐ Comme					
Working hours:	Hours per day							Details:						
Delivery in trucks:	Tons per day			Number per day				Total solid content:		%				
Delivery in containers:		Tons per day		Numb per da				Organic content:		%				
Type of containers:								Foreign substance content:		%				
Time of delivery:	from			to										
			Wet fo	rmentat	ion				Facility D	ata				
Planned appli	cation:		Dry fer	mentati biomass	on			Available space: [mm]		x		x		
☐ Tilting station for container Elect								Electricity:		Volt				50 Hz 60 Hz
☐ Receiving hopper and dosing screw														
□ DRM Separation mill									Addition	al In	formation			
☐ Storage silos									Additional Information e.g. timeline, budget of the project, etc.					
□ Sanitization														
☐ Process control engineering														
☐ Washing r	☐ Washing machines for containers
